## **SOUTHWEST COORDINATION CENTER**

The need for resources started early with the Southwest Area Coordination Center (SWCC) receiving its first order January 1<sup>st</sup>. This order was to the Southern Area and was the start of a long support effort to the Southern Area.

The 2001 fire season was light compared to the 2000 season. SWCC assisted the Lincoln Zone, Albuquerque Zone, Taos Zone, Flagstaff Zone, and Grand Canyon Zone in ordering and staffing several Type 1 and Type 2 incidents. SWCC also assisted in processing orders for moving personnel and equipment for prescribed fires.

The Southwest Area fire season was essentially over by mid-July, and SWCC resumed its support role for the Northern Rockies, Great Basins, Rocky Mountain and the Pacific Northwest Areas thru the end of September. SWCC also assisted the National Interagency Coordination Center and all of the Zones in mobilizing Bateman's Type I team to the World Trade Center emergency September 11<sup>th</sup>.

This season was the first season for SWCC in the new facility in Albuquerque. The season was severe enough for the activation of the Fire Meteorologist and Fire Behavior Analyst position to provide weather and fire behavior information to the field units during the most critical part of the fire season.

There were several different personnel movements at SWCC this past year. At the start of the year, John Schulte transitioned with Bill Waterbury as the Forest Service Regional Assistant Director for Operations. Dave Boyd was the Acting Center Director until April when John returned to the position. In November, John Schulte accepted a detail to the Washington Office of the Forest Service and Vernon Ely was detailed into the Center Director position for the remainder of the year. Other personnel changes included Bobby Shindelar accepting a detail to the Cibola National Forest and Rick Black from the Southern Area detailing in to SWCC to replace him. Hallie Locklear, Coordinator for New Mexico BLM, accepted a position with the US Fish and Wildlife Service at NIFC. Brian Lee from the Apache-Sitgreaves National Forest was hired in Hallie's position as a coordinator. The Arizona BLM hired Kenan Jaycox as a dispatcher. U. S. Fish & Wildlife Service hired Chuck Maxwell and National Park Service hired Rich Woolley. These two positions were hired to build a Fire Weather program and to enhance the predictive services capability of SWCC.

**Vernon Ely**  
**Center Director (Acting)**

## MOBILIZATION THROUGH SWCC

### Total Southwest Coordination Center

|                   |              |            |

## INCIDENT MANAGEMENT TEAMS

### TYPE 1

The Southwest Area maintained two Type 1 Teams during 2000. The two teams were lead by Incident Commander's by Larry Humphrey (AZ-SAD) and Van Bateman (AZ-COF).

#### SWA Type 1 Incidents

| <b>Incident Name</b>    | <b>Agency</b> | <b>Unit</b> | <b>Type 1 Incident Commanders and Area Commanders Assigned</b> |
|-------------------------|---------------|-------------|--|
| <b>Trap &amp; Skeet</b> | BIA           | MEA         | Humphrey   |
| <b>Pinatosa</b>         | FS            | CIF         | Bateman  |

#### SWA Type 1 Team Assignments

| <b>Incident Commander</b> | <b>Incident Name</b>  | <b>Unit</b> |
|---------------------------|-----------------------|-------------|
| <b>Larry Humphrey</b>     | Trap & Skeet          | NM-MEA      |

## CREWS

### Type 1

During 2001, there were 17 Type I Interagency Hotshot crews and 3 trainee Hotshot crews sponsored in the Southwest Area. Ten crews came from Arizona and seven from New Mexico. The three trainee crews came from New Mexico. Primary agencies hosting Hotshot crews in the Southwest Area are the USDA Forest Service and the Bureau of Indian Affairs.

### Crew Assignments

Southwest Area Type I crews were assigned to a number of incidents throughout the Southwest Area and other geographic areas of the United States during 2001. The following chart indicates the number of assignments and the states in which crews were dispatched. Please note that a crew could have received multiple assignments within a state.

| Crew Name       | *Total Assignments | Assignments Out-of-Area |    |    |    |    |    |    |    |
|-----------------|--------------------|-------------------------|----|----|----|----|----|----|----|
| Blue Ridge      | 13                 | CA                      | FL | ID | MT | OR | WA | WY |    |

## Type 2

There were a number of Type 2 Southwest Fire Fighter (SWFF) crews sponsored by the USDA Forest Service and USDI Bureau of Indian Affairs during 2001. The majority of these crews came from the White Mountain Apache, Navajo, Hopi, Hualapai, Yavapai Apache, Tohono O'odham, San Carlos, Jicarilla, Concho, Mescalero, Black Mesa, Santo Domingo, Jemez, Zia, Zuni, Acoma, Laguna, San Felipe, Isleta, and Ramah Indian tribes in Arizona, New Mexico, and Oklahoma. Each crew consists of 20 personnel, including a crew boss and three squad bosses.

In addition to the Indian crews, the Southwest Area also provides Type 2 crews from commercial contract services, as well as crews made up of regular federal employees.

## Assignments

The fire season of 2001 provided a number of opportunities to assign Southwest Area Firefighter (SWFF) crews to incidents. Over 316 crews were assigned to incidents located throughout the Southwest Area and other Geographic Areas across the country.

| Home Unit                           | Crew Name                    | *Assignments |

## FIRE CACHE REPORT

### Prescott Fire Cache

The National Interagency Support Cache at Prescott is located approximately 8 miles north of Prescott, Arizona at the Prescott Fire Center and Henry Y.H. Kim Aviation Facility. The cache's geographical service area encompasses Arizona as well as the southern portions of Utah and Nevada. Cooperators include the Bureau of Indian Affairs, Bureau of Land Management, National Park Service, U.S. Fish and Wildlife Service and the State of Arizona.

Within the cache's geographical service area, the 2001 season was one of minimal large fire activity. A cooler and wetter spring also reduced initial attack orders placed with the cache. Supplies and equipment were provided in June to the first of two Arizona Type 11 incidents. The lightning season in July and August initiated some suppression support as well as the servicing of a long-term fire use incident in the Grand Canyon National Park. As the Great Basin, Northwest and Northern Rockies Areas activity levels also increased in August, 75 percent plus of Prescott's inventory was shipped northward. Supply refurbishment, restocking and filling incident replacement orders for returning crews occupied cache personnel in September and October.

In response to user requests, the Prescott Cache instituted a credit card payment program for preparedness supply orders in April of 2001.

Prescott Cache personnel spent 219 days on assignments as cache demobilization specialists, inventory managers, warehouse workers and supply coordinators.

### Preparedness Orders

| Agency       | Amount Issued       | Number of Incidents | Percent of Total |
|--------------|---------------------|---------------------|------------------|

### Silver City Fire Cache

The Silver City Incident Support Cache is located twenty (20) miles south of Silver City, NM at the Grant County airport. The cache consists of approximately 10,000 square feet of floor space divided among seven buildings. Administration of the cache is managed through the Gila National Forest. The geographic area of coverage for the Silver City Cache includes New Mexico, Western Texas and Southeastern Arizona. The cache provides service to both suppression and pre-suppression orders from a wide variety of federal and state agencies.

During 2001, we supported two Type 1 and six type 2 incidents in the Southwest Area, a Type 3 in Texas, and miscellaneous ABC incidents throughout. After the rains came to the region, we began supporting other regions by shipping supplies and personnel to Oregon, Idaho, Kentucky and Montana.

The cache had a couple personnel changes this year. The Supply Clerk and the Materials Handler Leader positions were filled to replace individuals that had moved on to different locations.

The following is a numerical summary of the activity at the Silver City Fire Cache:

|   |                |                    |     |
|---|----------------|--------------------|-----|
| Issued value:                           | \$6,036,087.33 | Number of issues:  | 813 |
| Returned value:                         | \$2,592,120.28 | Number of returns: | 452 |
| Pounds issued:                          | 716,970.19     |                    |     |
| Cubic feet issued                       | 549,826.45     |                    |     |
| Inventory value at time of this report: | \$1,064,282.23 |                    |     |
